Mtn Edge Black Chrome
15.2 A/A homozygous for
gait, Very athletic, beautiful
head and good bone.

The Gaited Morgan Horse Organization (GMHO), also known as MSFHA, the Morgan Single-footing Horse Association is the original (since 1996) Member based and Breeders Organization recognized by the American Morgan Horse Association (AMHA) as a National Service Organization. We are based throughout the US with members abroad as well. The GMHO takes the position of promoting all Morgan types and disciplines with particular emphasis and promotion of the inherent four beat gaits found within the present registry of the Morgan breed. GMHO is committed to research, education and promotion of these Morgan horses due to their outstanding athletic abilities.

GAITED MORGAN HORSE ORGANIZATION / MSFHA STANDARD GAIT DESCRIPTIONS

Single-foot: a broad term used by old time horsemen to describe any gait other than a two beat gait. A single foot hits the ground one at a time. GMHO has adopted the term 'Single-Foot' as an umbrella term to describe the continuum. It includes the following gaits: fox trot, running walk, rack and stepping pace.

Fox Trot: A four beat gait where the diagonal hooves move together with the front hoof hitting the ground slightly before the rear.

Running Walk: An even four beat cadence with each hoof hitting the ground singly, similar to a flat foot walk but with more speed.

Rack: A four beat cadence with each hoof hitting the ground singly but somewhat laterally in nature. The rack more closely resembles the running walk, but can develop more speed.

Stepping Pace: A four beat gait in which the lateral hooves move together with the hind hoof hitting the ground slightly before the front. This gait is sometimes called a broken pace.

Our mission at Mtn Edge Gaited Morgans is to preserve and promote a unique and quality foundation for singlefooting Morgans. We believe great bloodlines that demonstrate both gait and "sure-footedness" matter. We keep only the very best brood mares. Our stallions & mares are genetically tested for gait using the Synchro Gait Gene Test. We dedicate ourselves to the preservation of the old Morgan type, with the genetic ability to show gait. They must be athletic and excel in many disciplines such as endurance, reining, competitive trail, combined driving, cutting, and a good singlefoot down the trail. They must be a good trail horse with a lot of bottom end that will go all day like Justin Morgan, a family horse you love, and a show horse. They must be sensible, intelligent and willing. These horses are bred to dominate the rugged mountains and desert terrain of the west. They are all American-made.
